In view of applicants' response filed 9/25/08 only the following applies.

The disclosure is objected to because of the following informalities: The terms "spontaneous nucleus" and "spontaneous nucleation" remain throughout the specification. Applicants may have overlooked this objection. See pages 4,6,7,17 (in the headings) and page 18 at the very least. For "nucleus" appearing on p.19, 2<sup>nd</sup> line this occurrence appears reasonable given the context it is being used.

Appropriate correction is required.

Claim 6 remains rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. While applicants have removed "a crystal" from the remaining claims, it still appears in 6. For this claim "a crystal of" should be replaced by "crystalline".

The 102 rejection over Kakemi is withdrawn based on applicants' remarks regarding the lack of experimental conditions reported in the article coupled with applicants' attempts to obtain Form III directly from form "A" as discussed in the specification. There is no additional teaching explicitly describing solvate formation when using any solvent described in Kakemi much less use of the acetonitrile solvate to directly produce form III.

Claims 1 and 4-5 are allowed.

Claim 3 is objected to because of the following informalities: In reviewing the claim language, note that "characterized by" is extraneous given what follows it. Appropriate correction is required.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
